The Units

→ Strategic Management

This unit covers the strategic role of project management in aligning projects with organizational goals. It explores strategic planning, implementation, and the integration of project management with business strategy.

→ Project Management Processes

Focuses on the core processes of project management, including project initiation, planning, execution, monitoring, and closure. It emphasizes the use of various methodologies and tools to manage projects effectively

→ Project Leadership and Management

Examines the leadership and management skills necessary for successful project management. It includes topics such as team dynamics, stakeholder management, and conflict resolution.

→ Risk Management in Projects

This unit addresses the identification, assessment, and management of risks within projects. It covers risk mitigation strategies and the development of risk management plans.

→ Financial Management for Projects

Deals with the financial aspects of project management, including budgeting, cost control, and financial reporting. It emphasizes the importance of financial planning and management for project success.

→ Advanced Research Methods

Provides advanced research skills necessary for conducting significant research projects within the field of project management. It includes research design, data analysis, and the presentation of research findings.

Entry Requirements

→ For entry onto the OTHM Level 7 Postgraduate Diploma in Data Science qualification, learners must possess:

- Applicants should hold a Bachelor's degree or an equivalent qualification in a related field such as Business, Management, or Engineering.
- Ideally, candidates should have a minimum of two years of professional experience in project management or a related field.
- Non-native English speakers need to demonstrate English proficiency with an IELTS score of 6.0 or equivalent.
- Candidates over 21 years of age, without formal qualifications, significant work experience and relevant professional certifications may be considered for admission.
